IVAN RAZUM

Front-end developer

PROFILE

Ambitious and hardworking front-end developer with a year and a half experience in HTML, CSS, JavaScript, Vue JS and React JS. Still learning and deepening knowledge of various front-end technologies.

EDUCATION

Vocational training | Open University of Algebra, Zagreb

Mar 2021 - Mar 2022

Course of front-end development fundamentals. The course covers materials of HTML, CSS, JavaScript, Git and ReactJS. After finishing the lectures, I made several applications in the VueJS and deepened my knowledge. I worked with Bootstrap and Element Plus frameworks. In addition, I went through JavaScript course on freeCodeCamp webpage, and watched lectures from Maximiliane Schwarzmüller via Udemy program. Currently I am working on my knowledge of ReactJS through the course Modern React with Redux by lecturer Stephen Grider, also via Udemy program. In mentorship of my friend who have four years of experience in front-end development, I went through the issue of programming.

My GitHub profile for insight into projects: <https://github.com/Zoom1611?tab=repositories>.

Masters degree | Faculty of Forestry and Wood Technology, Zagreb

Oct 2015 - Sep 2021

I enrolled University course of Urban Forestry, Nature and Environmental Protection. Urban Forestry, Nature and Environmental Protection is based on the study of the relationship between built and unbuilt areas of the city and how to most effectively reduce the degradation and loss of green areas. Monitoring the state of urban greenery aims to facilitate management and ensure efficient protection of the public green spaces. When carrying out certain procedures in the urban environment, the profession is committed to the use of environmentally friendly methods and sustainable spatial development.

Vocational training | Littera d.o.o., Samobor

Sep 2008 - Jun 2014

Littera is a private school of foreign languages. I studied English for six years. My education started in the fifth grade of elementary school and I attended it until the second grade of high school.

Highschool degree | School of Economics, Commerce and Catering, Samobor

Sep 2011 - Jun 2015

I enrolled in Economics school. I was studying subjects based on management, entrepreneurship, accounting etc.

EXPERIENCE

Electrician | EL-kon, Samobor

Jul 2019 - Dec 2021

EL-kon is Dad's craft. Worked at every opportunity from 2019 to 2022 when I was free from college and other commitments. Most of the time I was there to help the masters and I learned lots of lifetime skills.

Student contract

Factory hand | Sampos d.o.o., Samobor

Dec 2018 - Feb 2019

Sampos is a company that deals with cutting and engraving Plexiglas and making different types of products depending on order. In order for company to

be able to show customers the types of Plexiglas, they offer a range of their products.

Production of different types of sample pallets by separating the foil from top and bottom of the Plexiglas and preparing the Plexiglas for its stacking in the pallet.
